

## BOSS Receptacles, Plugs, & Cord Ends

When you need power in tough weather or harsh climates, then the BOSS line of wiring devices is for you. BOSS receptacles, plugs, and cord ends stand up to all of the abuse. Cast aluminum bodies, caps, and rings combined with durable rubber boots and gaskets make this line both durable and reliable.

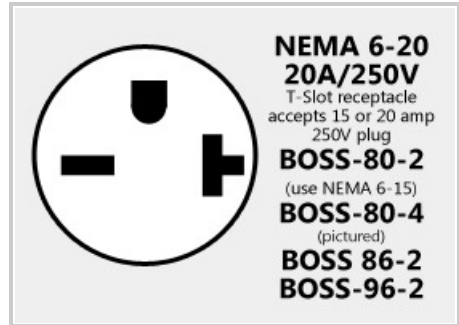

### BOSS 80 (Male Plug)

- Cast open ring holds rubber boot and threads securely to BOSS 96 receptacle or BOSS 86 cord end.
- High Quality rubber boot ensures water-tite seal.

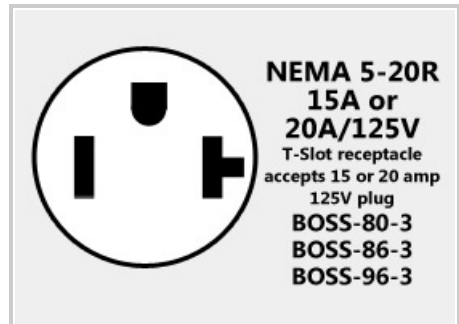

### BOSS 86 (Female Cord End)

- Cast aluminum cap keeps out the elements and debris when not in use.
- Same amperage/voltage interior (connector body) options as in BOSS 96.
- The threaded bushing on the BOSS 86 female cord end accepts ring of BOSS 80 or the BOSS dust cap and chain to keep out the elements and debris when not in use.

### BOSS 96 Receptacle

- Designed to fit any manufacturer's FS-style boxes
- Cast aluminum cap keeps out water, snow, ice, and debris when not in use.
- Durable chain keeps cap from disappearing while receptacle is in use.
- Available in different amperage/voltage options to suit your applications.
- 96PT comes with pigtailed pre-wired for quick installation.

### Replacement Parts

BOSS-80COR	cast open ring	BOSS-80BO	rubber boot	5258CH	BOSS -96 Interior only (5-15R)
BOSS-86COR	cast open ring	BOSS-96DC	cap and chain	5858-PS	BOSS -96-2 Interior only (6-20R)
BOSS-86BU	bushing	BOSS-96NG	plate gasket	5358-PS	BOSS -96-3 Interior only (5-15R)
		BOSS-CG	cap gasket
